

When you need some peace and QUIET

Take advantage of the Pillar® Palatal Implant Procedure.

Has your snoring affected your peaceful nights' sleep? Now, a breakthrough treatment can help you. For the first time, ENTA Allergy Head & Neck Institute can provide a treatment that is specifically designed to produce a more lasting reduction in snoring after a single, brief procedure with minimal discomfort.

The Pillar® Procedure for Snoring:

- FDA Approved
- Clinically Proven
- High Satisfaction Rate
